SUMMARY

Hello! My name is Nate, a 17 year old that has been coding since around the age of 8! I have developed a varied experience in basic web development including react.js, type.js, vue.js, angular.js, and a lot more! I also have experience developing applications using python and C# (.NET.) I am extremely passionate about the technology field and I love having the opportunity to expand my skill set as well as my knowledge, and tackle new challenges.
